

April 2020 Newsletter

All Gene's classes are running as normal other than the Tuesday night class which is cancelled. There are usually only 4-6 people in class so there is 8 to 10 feet of social spacing between each person. Gene is sanitizing every faucet, doorknob, switch and other common touch points at least twice every class. People who are coming to class have no symptoms, so he is making it a safe environment to work in.
